

PIPELINE COILS WITH BALL BEARING ENDS

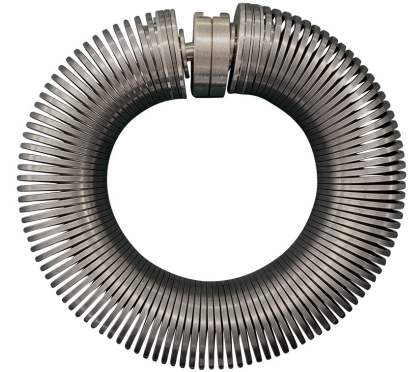

PCWI's range of Pipeline Coils come complete with Ball Bearing Ends and are suitable for all High Voltage Porosity Detectors, Holiday Detectors, Spark Testers and Jeepers. Each coil comes with pacman clips which join both ends of a coil, allowing for quick connection around a pipe. PCWI has an extensive range of coils, ranging from 50mm (2") to 1,470mm (58"). Our Coils are pre-cut to size, however, custom sizes are available upon special request.

FEATURES

- Special Square section and no sag design
- Coil sizes from 50mm to 1470mm (2" to 58")
- Includes pacman clips for holding together
- Pre-cut sizes with custom sizes available upon request
- Coil joiners and handle extension pieces available
