FLOORING INSPECTOR KIT

A compact kit for instant and precise moisture testing of concrete and wood flooring. The Tramex CMEX5 digital moisture meter allows for non-destructive quantitative testing of concrete and comparative testing per ASTM F2659. Plug-in reusable RH probes allow for performing ASTM F2170 for relative humidity readings in concrete slabs. The Tramex heavy-duty wood pin-probe measures the moisture content of wood. An infrared surface thermometer gives surface temperature and dew point conditions used in conjunction with the CMEX5 hygrometer. The Flooring Inspector Kit comes with an extension handle in a heavy duty Tramex travel case. The Tramex Meters App allows you to GeoTag test results, create, save and share reports and charts, as well as see your meter screen on your phone when extending to hard to reach places.
